Work

***Associate Product Manager* @ Databricks** – Data Governance and Metadata *Jul 2025 – Present*

- Shipped Tag Automations 0-to-1: converted an engineering concept into a validated enterprise product. Drove customer discovery across 40+ enterprises, designed an AI-native solution, and secured 200+ customers in a month.
- Launched a talk-to-my-data AI assistant that drives 25K questions/day. Grew weekly active users by 38% by conducting extensive SQL analysis and clearing legal and compliance reviews to support regulated customers.
- Diagnosed stalled adoption for the Request for Access feature via 35+ customer interviews and simplified configuration that lifted weekly active requests by 33% and requests reviewed by 70%.
- Supported VP-level product strategy to mitigate agent data leakage and ensure agents reference trusted assets.
- Delivered the key 101 presentation for Unity Catalog at the 2026 Databricks Data + AI Summit, the industry's largest data & AI conference with 31,000+ attendees.

***Product Management Intern* @ Databricks** *Jun 2024 – Sep. 2024*

- Interviewed 14 customers worth over $568B about their private connectivity pain points.
- Published a PRD for two networking observability features to be used by 8K enterprise customers.

***Technical Product Management Intern* @ T-Mobile** *May 2023 – Jul 2023*

- Scoped and designed the lifecycle for a new damage fee across 70+ Puerto Rico stores to capture incremental revenue.
- Partnered and aligned with technical architects and business stakeholders through impact assessment and rollout.

Projects

***Co-Founder & "Head of Cafe" @* On Call Café** *Apr 2024 – Jun 2025*

- Identified unmet demand for a late-night community space and built the business case to launch Stanford's first late-night cafe; secured a $1M alumni endowment to sustain student-run operations for 20 years.
- Transformed an abandoned building into a fully licensed food business, creating 3 seasonal menus, and established a cafe playbook for daily service and catering.
- Hired and managed a 55-person student team to execute 4-day/week operations, serving ~50 students/hour and generating $60K in revenue at $4/drink.

***Technical Co-Founder* @ Strata** *Sep 2024 – Apr 2025*

- Co-founded an AI technician training platform in the Stanford Advanced Venture Accelerator program.
- Pitched to Silicon Valley angel investors and earned top cohort distinction for venture viability.
- Identified early product-market fit for school bus fleets and freight fleets along fuel corridors to upskill technicians.

***Senior Consultant* @ Stanford Consulting** *Oct 2021 – Apr 2024*

- Evaluated 9 international market expansion opportunities and user personas for an autonomous vehicle company.
- Surveyed 125+ respondents to develop brand positioning and guest retention strategies for a micro-hotel chain.

Education

Stanford University *Sep 2021 – Jun 2025*

Bachelor's in Data Science and Urban Systems, GPA: 3.81
